Attachments: 2020 ATSDR Chemical Nominations Memo May 27 2020 signed.pdf; ATSDR Chemical Nominations List May 27 2020.xlsx

Hi Kambria,

On behalf of EPA/ORD/CPHEA where the IRIS, PPRTV, ISAs assessments are conducted and assessment support provided for the EPA Program Offices (e.g., OCSPP), I responded to a similar request in 2020. I am sending the attachments sent to Susan Ingber here.

Clicking on the Substance Priority List (SPL) link below, it takes me to the 2019 SPL list. Can you confirm if there are any changes made? Also, would you find updating the previous submission format helpful for the current request?

Also, since the request came to us late, I was wondering if there is a possibility for an extension.

Appreciate hearing from you.

Thanks.

Best,

-Santhini (she/her/hers)

Subject: FW: Toxicological Profile Development Nominations

Hi Barbara/Santhini,

We are soliciting comments/nominations for the next profiles. We haven't been able to get our Dear Colleague email out to EPA addressees after multiple tries by Kambria and me. There are about 30 EPA staff on the list; the EPA server may not be allowing thinking it is spam.

In any event, I thought I'd send to you two as well as cc Kris and Samantha. See below and share with whomever you wish.

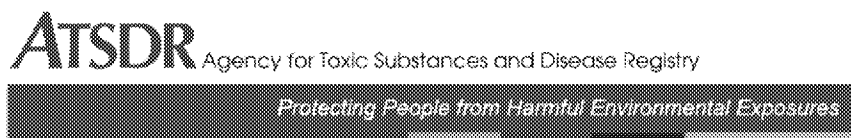

Thanks,

Henry

Subject: FW: Toxicological Profile Development Nominations

Hi all,
We are soliciting comments and nominations on the next set of toxicological profiles. I have been made aware that the email below may not have reached you. If that is not the case, my apologies for the extra email. Otherwise, please see below. Let me know if you need an extension to the July 31 date.
Regards,
Henry

Subject: Toxicological Profile Development Nominations

Dear Colleague:

The Agency for Toxic Substances and Disease Registry (ATSDR) would like your input on which substances we should prioritize for the next round of Toxicological Profile development.

In accordance with legislative mandates, ATSDR's Office of Innovation and Analytics (OIA), Toxicology Section is in the process of reviewing candidate substances from the Substance Priority List (SPL) ([link](#)). We are requesting nominations from this list, as well as other substances of public health concern that you would like ATSDR to consider.

Feel free to consult [ATSDR's Toxicological Profile page](#) for a list of current profiles, as well as profiles already under development.

Please reply directly to this email or reply to khaire@cdc.gov by **July 31, 2022**, and include justification for the substance(s) that you are nominating. Also include "2022 Tox Profile Nominations" in the subject line.

Thank you in advance. We look forward to receiving your feedback.

Thanks,
